

SEWER INSPECTOR

GENERAL STATEMENT OF DUTIES: Performs inspection work in connection with the construction, maintenance and operation of sewers; does related work as required.

DISTINGUISHING FEATURES OF THE CLASS: Under general supervision, this position is responsible for inspection work as related to breaks, repairs and testing of sewer lines. Inspector receives instructions from higher level official, such as Town/Village Engineer, but work is independently planned and carried out to completion without supervision.

EXAMPLES OF WORK: (Illustrative Only)

Inspects new sewer installations for tightness of joints and pitch of pipe, type of materials used and method of installation;

Inspects repair work on old sewer lines and the disconnection of lines, due to the condition or removal of buildings;

Inspects asphalt work, excavation and backfilling of soil;

Records location of bends in pipes and location of clean outs;

Keeps file records of dates and time of inspections;

Updates public sewer maps showing new public installations;

Prepares and submits reports concerning sewer applications and inspections;

Investigates and reports on public complaints.

REQUIRED KNOWLEDGE, SKILLS, ABILITIES AND ATTRIBUTES: Good knowledge of approved methods, techniques, and materials used in sewer installation and maintenance; good knowledge of sewer codes regulating the installation and maintenance of sewers; ability to read and interpret plans and specifications of sewer lines and systems; good judgment; physical condition commensurate with the demands of the position.

MINIMUM ACCEPTABLE TRAINING AND EXPERIENCE: Either (a) graduation from high school or possession of a high school equivalency diploma and two years of experience in sewer construction, maintenance or operation; or (b) one year of post high school course work in construction or mechanical technology supplemented by one year of experience as noted in (a); or (c) a satisfactory equivalent combination of the foregoing training and experience.
